I colori devono intendersi indicativi in quanto, per motivi di stampa, potrebbero discordarsi da quelli reali. I numeri riportati accanto ai colori sono da intendersi "simil RAL". Le fasce con colorazioni forti, esposte al sole, potrebbero presentare modesti spanciamenti e/o deformazioni, non soggette a contestazioni trattandosi di fenomeni del tutto naturali. Le stecche con finitura liscia possono presentare naturali ondulazioni o imperfezioni sugli snodi che non potranno essere oggetto di contestazione. Tempi di consegna da concordare.

Please, notice that printed colors are not binding since the printing process may have altered their brightness and contrast with respect to real ones. Color numbers to be intended as RAL-like. Heavy-colored, sun-exposed stecche might experience slight "spanciamento" (outward stecche bending) and/or superficial deformation. Such eventual natural occurrences cannot constitute ground for complaint. Smooth-finish stecche may present a natural waviness o imperfezioni sugli snodi which cannot constitute ground for complaint. Delivery times to be agreed.
