

DOMINUS GUIDE E ACC. / GUIDES AND ACCESSORIZES

GUIDE DI SCORRIMENTO

SLIDING GUIDES

LE GUIDE DI SCORRIMENTO SONO REALIZZATE CON PROFILI DI ACCIAIO ZINCATO DI ADEGUATO SPESSORE, E LA PROFONDITÀ DELLA GUIDA È FUNZIONE DELLA LARGHEZZA DELLA SERRANDA. LE GUIDE SONO MUNITE DI GUARNIZIONI IN COESTRUSO ANTIRUMORE E NELLA PARTE SUPERIORE DI PROFILO COMPENSATORE CON SPAZZOLINO CHE CREA UNA TENUTA TRA L'ARCHITRAVE E LA SERRANDA. L'ANCORAGGIO AVVIENE TRAMITE STAFFE DA FISSARE CON ANCORANTI MECCANICI.

THE SLIDING GUIDES ARE MADE WITH GALVANIZED STEEL PROFILES OF ADEQUATE THICKNESS, THE GUIDE DEPTH IS A FUNCTION BY THE WIDTH OF THE SHUTTER. THE GUIDES ARE EQUIPPED WITH ANTI-NOISE CO-EXTRUDED GASKETS AND IN THE UPPER PART OF A COMPENSATOR PROFILE WITH A BRUSH THAT CREATES A SEAL BETWEEN THE LINTEL AND THE SHUTTER. THE ANCHORAGE IS USED WITH BRACKETS TO BE FIXED WITH MECHANICAL ANCHORS.

1. Il gancio a L scorre solo nella guida C50
2. Il gancio a rullo scorre solo nelle G80, G80S e G95
3. Il gancio a L scorre solo nelle guide 80/95
4. Il gancio a T scorre solo nelle guide 80/95

1. L hook slides in guide C50 only
2. Rolling hook slides in G80, G80S e G95 only
3. L hook slides in guides 80/95 only
4. T hook slides in guides 80/95 only

CARTER

COPRI MOTORE E COPRI CUSCINETTO PER SERRANDE ESPOSTE AGLI AGENTI ATMOSFERICI

MOTOR COVER AND BEARING COVER FOR SHUTTERS EXPOSED TO ATMOSPHERIC AGENTS

CASSONETTI, ORNIE E VELETTE

SYSTEM COVER, FRAME EXTENSIONS AND UPPER COVERS

I cassonetti nascono con l'obiettivo di proteggere l'intero asse, evitando l'inserimento di corpi estranei, e migliorando al contempo l'estetica interna della serranda. La veletta risulta, invece, necessaria quando l'altezza dell'architrave è insufficiente a nascondere il gruppo asse. Infine, quando le murature non sono a perfetta regola d'arte (fuori piombo, con bordi irregolari, ecc..) vengono fornite le ornie, cioè lamierati pressopiegati che compensano e/o nascondono le imperfezioni della muratura.

The boxes are designed to protect the entire axis, avoiding the insertion of foreign bodies, and at the same time improving the internal aesthetics of the shutter. The upper cover is, however, necessary when the height of the architrave is insufficient to hide the axis group. Anyway, when the walls are not in a perfect workmanlike manner (out of plumb, with irregular edges, etc.) we supply press-folded sheet metal which compensates and/or hides the imperfections of the masonry.

VELETTE

UPPER COVERS

**VELETTA PRESSOPIEGATA
IN ACCIAIO ZINCATO
(A RICHIESTA: VERNICIATA O RIVESTITA
IN LAMIERA DELLO STESSO COLORE
DELLA FASCIA, FINITURA LISCIA)**

GALVANIZED STEEL PRESS-FOLDED VELETTA
(ON REQUEST: PAINTED OR COATED IN SHEET METAL
OF THE SAME COLOR OF THE BAND, SMOOTH FINISH)

**VELETTA PRESSOPIEGATA IN ACCIAIO
FORATA QUADRO 20X20 MM
(A RICHIESTA: VERNICIATA O RIVESTITA
IN LAMIERA DELLO STESSO COLORE
DELLA FASCIA, FINITURA LISCIA)**

UPPER COVER PRESSED IN 20X20 MM PERFORATED
SQUARE STEEL (ON REQUEST: PAINTED OR COVERED
IN SHEET OF THE SAME COLOR OF THE BAND,
SMOOTH FINISH)

**VELETTA IN LAMIERA ACCIAIO
MICROFORATA ZINCATA
(VERNICIATA A RICHIESTA)**

UPPER COVER IN GALVANIZED MICRO-PERFORATED
STEEL SHEET (PAINTED ON REQUEST)

ASSEMBLAGGIO MECCANICO

MECHANICAL ASSEMBLY

Da preferire quando l'ornia è verniciata e per evitare saldature in cantiere. Fino a 6000 mm di larghezza/altezza.

Preferable when the ornament is painted and to avoid welding on site. Up to 6000 mm wide / height.

1. **Ornia in luce non assemblata meccanicamente**
Frame extensions in light not punched
2. **Ornia oltre luce non assemblata meccanicamente**
Frame extensions beyond light not punched
3. **Ornia assemblata meccanicamente in luce non saldata in cantiere**
Frame extensions mechanically assembled in light not welded on site
4. **Ornia assemblata meccanicamente oltre luce non saldata in cantiere**
Frame extensions mechanically assembled over light not welded on site

TEARING/BREAK-IN LOCKS

SERRATURE con possibilità di chiavi unificate

LOCKS with possibility of unified keys

1. Serratura centrale
Central lock
COD. A21SC (SF-SFA)
COD. A21SCP (SFEAC-SFEAL serratura decentrata / decentralized lock)
COD. A21SCDP (SFDAC-SFDAL)

2. Serratura centrale a doppia mappa
Double bit central lock
COD. A21SCDMA (SF-SFA)

3. Serratura laterale
Lateral lock
COD. A21SL (SF-SFA)
COD. A21SLP (SFEAC-SFEAL)
COD. A21SLDP (SFDAC-SFDAL)

4. Serratura laterale a doppia mappa
Double bit lateral lock
COD. A21SLDM (SF-SFA)

5. Campana con lucchetto
Dome padlock
COD. 3231412

MANUTENDOOR

**MANUTENDOOR È UN MARCHIO FERRARO.
OFFRE AL MERCATO NAZIONALE SERVIZI DI
MANUTENZIONE E RIPARAZIONE PROFESSIONALI NEL
SETTORE DELLE CHIUSURE RESIDENZIALI ED INDUSTRIALI
E DEI SISTEMI PER PUNTI DI CARICO.**

Norme di riferimento: D. Lgs. 81/08 e UNI 11473.

**La rete nazionale dei Tecnici Manutendoor e la loro
formazione tecnica sono per i Clienti la garanzia di un
servizio efficiente e sempre in linea con le necessità
operative. Manutendoor assicura la disponibilità delle
parti di ricambio dei principali Produttori nazionali
ed esteri e l'aggiornamento continuo sulla normativa
nazionale ed europea dei prodotti assistiti.**

MANUTENDOOR IS A FERRARO TRADE MARK.
IT OFFERS TO THE NATIONAL MARKET A PROFESSIONAL
MAINTENANCE AND REPAIR SERVICES IN THE FIELD OF
RESIDENTIAL AND INDUSTRIAL CLOSURES AND LOADING
POINT SYSTEMS: D. Lgs. 81/08 AND UNI 11473.

The National network of technicians Manutendoor and their
knowledge are, for the customers, a guarantee of efficient
service in line with the company needs. Manutendoor assures
the availability of the spare parts of the main producers
and the continuous updating on the national and European
standards of the treated products.

**I prodotti Ferraro Group srl sono conformi alla normativa
europea C€ in materia di chiusure. Per ulteriori
informazioni si prega di contattare i nostri uffici tecnici.**

Ferraro Group SRL products are in conformity with european
regulations C€ regarding closures. For further information
